Honey Bear Premium Soy Candles

Choose from

10 oz. Jar Candle - \$12.00 each

Tarts (1 brick of 6 cubes - same scent) - \$5.00 each

Votives (2 in a package - same scent) - \$5.00 each

100% all natural soy wax. Our candles contain no paraffin which means no petroleum. Soy candles burn 50% longer than paraffin candles. We use only cotton coreless wicks to aid in a "clean burn" with no lead or metal. We use high quality "fragrance oils" giving our candles the best fragrant throw possible throughout the life of the candle. Our soy candles are hand poured and made in the the "Heartland" USA.

OCEAN MIST
Clean, fresh
seabreeze

Create your own ambiance in your home or office with your choice of highly fragrant scents.

Light a candle, or

choose from several different scents of tarts to make your own signature fragrance, or

select several votives to give an illuminary effect.

To get the best life out of your candles, trim wicks 1/4" each time before lighting.

Soy has a "memory" when burning and to get the best burn time, do not extinguish until the top of the candle has "liquified" to about 1/4" deep all around to the edge of jar. Otherwise, you may not get a clean burn all around the candle.
